What Interclusive Is About

COMFORT IN EVERYDAY LIVING

Interclusive is about creating a home that feels calm, warm and lived in. A place where everyday objects bring comfort, simplicity and quiet beauty.

03

REFINED LIVING

New Chapter

Interclusive began in 2005, originally supplying carefully sourced rugs and cowhides to shops and retailers. What started as a wholesale business grew from a deep appreciation for natural materials, timeless interiors and products with character.

In 2020, that foundation evolved into the retail webshop Interclusive is today – bringing a curated collection of home, kitchen and tableware directly to customers.

Today, Interclusive is growing into a brand that feels more aligned with who we are and what we want to bring into everyday life. Our new identity reflects a softer, warmer and more intentional way of living – one rooted in comfort, beauty and calm.

This is not a change in direction, but a natural refinement of what has always been at the heart of Interclusive.

What we stand for

Timeless living

We believe in pieces that don't go out of style — made to live with, use often and keep for years.

Everyday warmth

Home should feel calm, comforting and lived in. We choose objects that bring softness and warmth into daily life.

Natural materials

We are drawn to honest materials and textures that age beautifully — from wood and ceramics to linen and hide.

Thoughtful design

Everything we offer is carefully chosen to balance function, beauty and character.
